PROJECTS

MYFOODIEDIARY | REACT   07/20 - 10/20
- Created an application for users to record and review their eateries privately
- Allows users to sign up, record entries, rate eateries, and share their list

NETFLIX | REACT   07/19 - 12/19
- Built to replicate Netflix's user's initial experience
- Consists of Nextflix's landing page, sign up, login, and browse page

GAME APP | REACT   04/19 - 07/19
- Rebuilt previous PUG application as a modern SPA.
- Has features of the previous version with the addition of a UI overhaul, wish list page, and selling page

GAME APP | PUG   10/18 - 02/19
- Developed an e-commerce application
- Features account creation, authentication using Google OAuth, user's cart, search function, and pagination
